SUBJECT: Student Teaching Entry Packet (STEP)

Dear Teacher Candidate,

We are pleased that you have reached a critical point in your pursuit to become a licensed educator. As a culminating experience, student teaching is a time to expand your knowledge of teaching, learning, and children/youth development. It is also a time to take risks in a supportive environment. The packet process is designed to give you the opportunity to demonstrate student teaching readiness based on entry level teacher education competencies and the programmatic focus areas of content, pedagogy and children/youth development. As such, please spend some time reflecting on your overall experiences up to this point that shape how you situate yourself as an educator in the frameworks of children/youth, content, and pedagogy. This packet includes the directions and forms necessary for completing the packet.

Your packet will be submitted via a STEP submission portal, and they are due on the semester prior to student teaching on the first Friday of October (Fall) or the first Friday of March (Spring). Applications will be evaluated by faculty for admission to student teaching and submitted to cooperating teachers who will use your information to screen you for placement in the public schools. Submission of packet does not guarantee admission to student teaching. You will be notified in writing should your packet submission not meet the high standards of faculty in the College of Health, Education, and Social Transformation.

STEP Packets will be submitted electronically within [the STEP Portal](#). Save each of your documents as a PDF in order to upload to the electronic submission portal.

To access the STEP Portal, use the link included up above, or enter the following web address directly in your web browser: <https://forms.gle/QddQLiD8sn5JNzz48>

STUDENT TEACHING LETTER OF INTRODUCTION Office of the Teacher Education Program (TEP)

Directions: Write a thoughtful 2-3 page typed, single-spaced *business letter* of introduction demonstrating your understanding of the foundation for teaching and learning through expounding upon your working knowledge of self, children/youth, content, and pedagogy. This letter will be evaluated by faculty; however, it will ultimately be given to your prospective cooperating mentor teacher and university supervisor. Your letter should reflect *professional business letter formatting* and preparation. Please address the following concepts in your letter:

1. What is your role as a professional educator in a diverse society?
2. Identify three (3) of your strength areas based on the content, professional knowledge, skills and/or dispositions you possess.
3. Why are you passionate about teaching in your specific area/content field?
4. Identify one (1) specific goal or area of improvement/weakness.
5. What are your specific expectations of the cooperating teacher in light of these strengths and weaknesses?
6. Detail your experience working with children/youth (practica, internships, substitute teaching, employment, volunteer work, etc.) What have these experiences ultimately taught you about the complexity of children/youth and their lives and what is required of you as a professional educator to engage them in learning?
7. Identify what you believe is one of the greatest challenges facing education. Include how you feel your role as a novice educator can impact that challenge.

LESSON PLAN from CONTENT AREA*

Developing your skills and abilities as a teacher is dependent upon your ability to develop quality lessons plans that take into account the **content, timing, student needs, and teacher needs** prior to delivery of a lesson. During student teaching there is an expectation that you will submit all lesson plans for approval by the cooperating teacher at least one week prior to delivery. Therefore, it is paramount that you demonstrate proficiency in the ability to write, think, and connect your stated instructional goals to the delivery and assessment of students.

Choose a topic represented in the standards and benchmarks of the content area and age group you desire to work with during student teaching. Develop a lesson utilizing the approved NMSU Lesson Plan template. You may utilize a lesson plan that you have had evaluated in another course or create a new one, but either way, it should represent your BEST work in lesson planning.
